

Codynamic Theory: Structure Is All You Need

Arthur Petron

June 12, 2026

1 Foundations of Structure

1.1 From Static to Codynamic

2 From Static to Codynamic

Historical failures of static structure; intuitionism as a constructive stance

2.1 Recursive Energy Paths

3 Recursive Energy Paths

Why energy, learning, and motion must be locally reconfigurable

4 Expressing Systems in Space and Time

5 Expressing Systems in Space and Time

Build up the mathematical and structural vocabulary needed to define systems that adapt with time, locality, and intent.
