

Functional GUI Test Book

TO BE SPECIFIED

June 12, 2026

1 Orientation

1.1 What the Machine Should Do

State the user-visible loop: import an outline, select sections, draft text, and compile.

1.2 Testing a Fresh Outline

Confirm that a new outline becomes the active book and appears in the workspace.

2 Working Method

2.1 Editorial Passes

Describe how section edits and agent review should feed back into the book.

2.2 Export Surface

Describe what a useful PDF preview should show before final export.
